The ABC of Successful
Investment Projects **Preparation**

PreP

The ABC of Successful Investment Projects **Preparation** (PreP) online course aims to offer project promoters a series of webinars and courses. The course is available in Spanish and English and seeks to provide an overview of the phases required in the formulation and presentation of low-carbon investment projects that are resilient to the impacts of climate change.

The course also seeks to stimulate the accumulation of knowledge and raise awareness on issues on the local development of low-carbon financeable infrastructure projects, as well as to develop capacities and access networks, links with organizations, specialists and other resources.
